Australian Mathematics Competition 2023

Dear Parent/Guardian,

The Australian Mathematics Competition (AMC) is an engaging 30-problem competition that demonstrates the importance and relevance of mathematics in students' everyday lives; it is open to students in Years 3 to 12. Australia's leading educators and academics, with a deep understanding of our national curriculum standards, actively design the unique AMC problems each year.

Held between Wednesday 2nd August and Friday 4th August, the AMC has five divisions: Middle Primary (Years 3–4), Upper Primary (Years 5–6), Junior (Years 7–8), Intermediate (Years 9–10) and Senior (Years 11–12). The competition will be conducted online at school during school time.

The cost to participate in the AMC is **$8.00**, including GST.

If you would like your child to participate in the Australian Mathematics Competition please complete the form below and return to the College Office before 4:00 pm on **Friday 21st July**.

Special note: If your child has registered for the Computational and Algorithmic Thinking (CAT) competition (held in Term 2) and you have bundled this with registration for the AMC, you **do not** need to complete the form below as your child is already registered for both competitions.

If your child would like to engage with some challenging problems to prepare for the AMC, a useful resource is available via the Student Portal at the https://problemo.edu.au/

Please do not hesitate to contact the College office if you have any questions regarding Australian Mathematics Competition.

Kind regards,

Michael Swanborough and Paige Cheung
Competition Coordinators

Australian Mathematics Competition Registration

Student's name: _____ Year Level: _____ Class: _____

Please charge my account for the amount of $8.00 for registration in the Australian Mathematics Competition.
